

### List of Instruments in ECO Laboratory

| <b>Sr.<br/>No.</b> | <b>Instrument</b>                    |
|--------------------|--------------------------------------|
| 1                  | Atomic Absorption Spectrometer       |
| 2                  | Gas Chromatography-Mass Spectrometry |
| 3                  | UV-Spectro-<br>Photometer            |
| 4                  | Electronic balance                   |
| 5                  | Hot Air oven                         |
| 6                  | Digital Muffle furnace               |
| 7                  | Hot plate                            |
| 8                  | Constant temp.water bath             |
| 9                  | Bajaj OTG                            |
| 10                 | Fridge                               |
| 11                 | Magnetic Stirrer                     |
